

Developing a Risk Management Mindset

		Yes	Needs Attention
1.	Do you have a designated risk manager who is familiar with your ministry's policies and procedures?	0	0
2.	Does your risk manager have adequate time for this responsibility and the authority to implement risk control measures?	0	0
3.	Do you have a risk management committee made up of members who have professional experience in areas like administration, finances, childcare, or construction?	0	0
4.	Do the members of your risk management committee possess good communication skills and the ability to creatively solve problems?	0	0
5.	Have you determined which areas of your ministry could cause the highest number of losses (accidents, damages, injuries)?	0	0
6.	Did you determine which areas of your ministry could cause the most expensive losses?	0	0
7.	Did you determine which areas of your ministry could benefit the most from safety improvements?	0	0
8.	Did you make a list of which areas of your operations are most important to your ministry?	0	0
9.	Did you make a comprehensive list of potential hazards within each area of your ministry? (These include damage or loss of equipment, damage or loss of property, theft or loss of finances, illness, lawsuits against the ministry, sexual abuse or molestation, injury or death.)	0	0
10.	Did you estimate the frequency of each potential hazard, from highly unlikely to highly likely?	0	0
11.	Did you determine the severity (or cost) of each potential loss, from low to high?	0	0

(Continued on back)

Risk Management Checklist

		Yes	Needs Attention
12.	Did you consider the relationship between risk frequency and risk severity? (For example, drowning has a low frequency but high severity. Slip-and-fall accidents generally have a high frequency but low severity.)	0	0
13.	Did you identify ways to avoid high frequency, high-severity risks?	0	0
14.	Did you identify ways to prevent high frequency, low- severity risks?	0	0
15.	Did you identify ways to reduce low frequency, high-severity risks?	0	0
16.	Did you identify ways to modify your plan to better control risks?	0	0
17.	Did you record the reasons behind your risk assessments in writing?	0	0
18.	Do you regularly re-evaluate hazards to be sure that you are appropriately addressing them as your ministry changes through the years?		0
